Taking a screen shot of your computer screen after completing all modules and saving to a WORD file is a best practice. This will be evidence of a course completion in the event your local machine does not communicate with our server.

Online accident analysis form and course

Complete the online accident analysis form as soon after the accident as possible. The form helps employers summarize the accident analysis for reporting purposes. You can find accident analysis resources at ohiobwc.com/employers/programs.

Guidelines for courses offered through non-BWC training forums

- o The group sponsor, third-party administrator or an independent source can sponsor a course, provided it meets the two-hour criteria.
- o The topic must be workplace safety related and at least two hours long or be two one-hour classes. The class may be held in a classroom, online or a Webinar with the proper documentation needed to submit to a group sponsor.
- o BWC pre-approval to qualified training is not required.
- o The class must be conducted by reliable and credible safety-training sources. If a sponsor has any questions about safety training that he or she wants to deliver, the sponsor may contact the assigned BWC safety consultant for guidance.
- o Employers can do in-house training provided they document it, and the training is beyond the expected regular day-to-day safety training in the workplace.

Sponsor documentation

- o Employers are responsible for submitting documentation on how they met the two-hour training requirement to their group sponsor or third-party administrator.
- o The sponsor must maintain documentation regardless of where the service is delivered.
- o Examples of documentation include, but are not limited to, signed class rosters or a certificate of completion.
- o Each policy owner needs to fulfill separately the two-hour training requirement.
